

ENVIRONMENTAL AND QUALITY POLICY

Advanced Engineering Ltd (the 'Organisation') operates an Environmental and Quality Management System (the 'Management System') that meets the requirements of BS EN ISO 9001:2008 and BS EN ISO 14001:2004, including aspects specific to the provision of products used in air conditioning, refrigeration, heating and water treatment.

Top management is committed to: -

1. Document, implement, maintain and improve the Management System
2. Continually improve the effectiveness of the Management System and processes to prevent and reduce pollution
3. The enhancement of customer satisfaction
4. Comply with applicable environmental legislation and regulations and other requirements to which it subscribes
5. A framework for the setting and reviewing of Environmental and Quality Objectives via the Management Reviews
6. Reducing landfill by reducing waste wherever practicable and possible
7. Reducing energy consumption wherever practicable and possible

Top management has a continuing commitment to: -

1. Ensure that customer needs and expectations are determined and fulfilled with the aim of achieving customer satisfaction by providing defect free goods and services to its customers on time and within budget
2. Communicate throughout the Organisation the importance of meeting customer needs and meeting legal and other requirements
3. Establish the Environmental and Quality Policy and its objectives
4. Conduct regular Management Reviews with regard to the effectiveness and implementation of the Management Systems
5. Monitor its environmental and quality impact and performance and implement improvements when appropriate

Top management will ensure that all personnel working for or on behalf of the Organisation understand the requirements of this Policy and comply with the contents of the Environmental and Quality Manual.

The Environmental and Quality Policy is available to the public.

A handwritten signature in black ink, appearing to be "G. Jones".
