

SuperClean

Heavy Duty Condenser Cleaner

coil cleaners

leak detection & monitoring
recovery machines
vacuum pumps
weighing platforms
acid treatment
fragrances & odour control
flame retardants
tools & accessories

KEY BENEFITS

Safer for the user than other heavy duty condenser cleaners

Brightens the coil and inhibits future oxidation

Advanced foaming action

Economical – a wide range of dilutions can be used depending on the dirt build-up on the coil.

Safer for the environment

Made in the UK

advanced
engineering

SuperClean

Heavy Duty Condenser Cleaner

Condensers can be subject to the most extreme environments and filters are rarely present to control contamination build-up. The dirt and debris are pulled directly into the coil. Combine this with high operating temperatures: the dirt is baked on. A dirty condenser will lead to an inefficient system and excessive strain on the compressor. A very powerful cleaner is needed to remove this baked on dirt

but unfortunately, as is often the case, the greater the power of the cleaner the greater the hazard for the user

SuperClean is an exceptionally heavy duty, non-acid, cleaner for condensers, formulated with the safety of the engineer in mind. Needing only application with a low-pressure sprayer; SuperClean penetrates deep within the coil. Here it will work to foam

coil cleaners

out even the most stubborn deposits leaving the coil bright, shiny and clean.

SuperClean contains only biodegradable surfactants it is non-acid and safer to use than an equivalent strength acid based cleaner. As well as leaving the coil looking bright and clean at the time of cleaning, the corrosion inhibitors in SuperClean will work to prevent future oxidation of the coil.

FEATURES

- Biodegradable surfactants
- Corrosion inhibitors
- Non acid
- Apply with a low pressure sprayer
- Dilution rates ranging from 3:1 to 20:1

RELATED PRODUCTS

- HydroSprayer
- Part no. 2601/2502M
- Literature code: HYDROSPRAY0700

TECHNICAL INFORMATION

Property	SuperClean
Application	Non-acid Condenser Cleaner
Soils	Grease, Oil, Dirt/Dust, Exhaust Residues
Dilution (water:product)	3:1 or 20:1 To Clean Problem Evaporators
Contact Period	5 Minutes
Rinse/Flush Required	YES

Special Features	Safer for the user, foaming and brightening action.
Product Code	SUCL0405
Packing Quantity	4 x 5 litres
Packing Size (L x H x D) cm	40 x 30 x 27
Shipping Weight (Kg)	22
Shipping Volume (m3)	0.0324
