

DrainSafe

Refrigeration drain unblocker

DrainSafe is a powerful drain unblocker for use on refrigeration systems. It has been designed to quickly dissolve slime and biofilms. These buildups are commonly found in the condensate lines draining away from chilled storage and dairy cabinets and can cause blockages and the spread of bacteria. Featuring an industrial strength formula, DrainSafe is acceptable for use on drains in and around food processing areas.

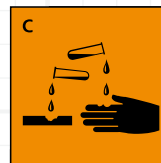

Specification

Name	DrainSafe
Product Code	010257
Packing Quantity	8 x 500ml
Packing Size	27 x 29 x 16
Shipping Weight Kg	4.85
Shipping Volume M ³	0.0125
Application	Condensate drain lines
Soils	Organic blockages - slime and biofilm
Dilution (water:product)	N/A
Contact Period	5 mins
Rinse/Flush Required	YES
Special Features	NSF registered formula

Directions for use

- Remove excess water from condensate tray, and condensate drain, if possible. Gently pour DrainSafe into the tray and allow it to enter the drain. Ensure DrainSafe® does not come into contact with foodstuffs.
- Allow DrainSafe to remain in condensate tray and drain for five minutes or until obstruction is cleared. Flush out with fresh water for 2-3 minutes. Repeat as necessary until obstruction is cleared.

DrainSafe UN1824 Corrosive
Contains: Sodium Hydroxide

R35: Causes severe burns. S1/2: Keep locked up and out of the reach of children. S26: In case of contact with eyes, rinse immediately with plenty of water and seek medical advice. S36/37/39: Wear suitable protective clothing, gloves and eye / face protection. S45: In case of accident or if you feel unwell, seek medical advice immediately (show the label where possible).

Consult Safety Data Sheet for full safety information. Always wear suitable PPE.

Approved by Aspen Pumps and other leading condensate pump manufacturers
