

RTU[®]

Bubble-up leak detector

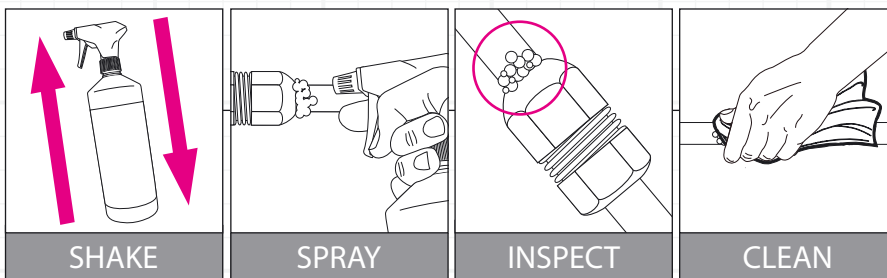

RTU[®] bubble-up leak detector is specifically designed to locate refrigerant leaks. Standard bubble-up leak detectors, designed for use with natural gas, are unsuitable: their lower viscosity means they will not cling to surfaces as effectively and can easily be blown off the pipework before the refrigerant leak is identified.

Specification

Name	RTU Bubble Up
Product Code	RTBU0801
Packing Quantity	8 x 1 litres
Packing Size (L x H x D) cm	35 x 32 x 18
Shipping Weight (Kg)	9
Shipping Volume (m3)	0.02
Application	Leak detector
Soils	N/A
Dilution (water:product)	NO
Contact Period	As required
Rinse/Flush Required	Wipe with damp cloth
Special Features	Ready-to-use

Directions for use

Spray onto suspect joints to achieve an even coating. Large leaks bubble up immediately; slow, small leaks bubble up within a few seconds or minutes. When leak detection has been completed, wipe inspected areas with a damp cloth.

RTU[®]
Bubble-up leak detector

Contains Anionic Surfactant

S2: Keep out of the reach of children. S25: Avoid contact with eyes. S26: In case of contact with eyes, rinse immediately with plenty of water and seek medical advice. S45: In case of accident or if you feel unwell, seek medical advice immediately (show the label where possible).

Consult Safety Data Sheet for full safety information. Always wear suitable PPE.
